Dear Friend,

Do you want to use your skills to make money?

I want to help you take the skills you have and LOVE to use and teach you how to make money with these skills and passion!

I'm Larry Kaye from ShadowAnyone.com and the author of two best selling books in Amazon's Law Practice Reference category. In the beginning of my career as a private investigator I was stuck, frozen in an unprofitable life **trying to do what I love but failing month after month.**

How did I dig out from anxiety and financial distress to being able to actually turning a profit tracking down people trying to skip out on their court ordered obligation?

I learned a new skill!

I learned how to serve process (which is delivering court papers) for law firms **and earning the paydays that come from doing it!**

You see, law firms need people to show up in court for the cases they're working. And usually, the people get their court papers and show up like decent upright citizens, but... some don't.

The good news is you make money either way!

If you're hired to deliver court papers to the decent folks, then you've just made a tidy little fifty bucks just for bringing them the papers they need. But, when you get a person "refusing" to accept the papers or hiding from the law firm, **then you get paid the big bucks for finding them and serving them** using the "tricks" private investigators and process servers have used for years to constantly make a decent lining!

Let's face it... You already have some of the skills.

And you probably love using those skills to help your friends and family! You know what I mean. Like when your friend needs to track down an old neighbor. Or when your brother-in-law needs to find the rip-off former employer who stiffed him on his last paycheck!

You already do it!

I teach you how to do it at the pro level and *how to get paid to do it!*

So what will you learn...
